## VEGALITÉ

The original name of our restaurant combines the French expression “égalité” (equality, balance or evenness) with the letter “V” referring to the orientation of our vegan cuisine. Our informal restaurant opened in 2009 as one of the first Czech restaurants focusing on vegan meal preparation. We try to bring good fresh vegan food and music together by producing evening live shows of the independent international club scene. As proved by the positive reviews of our customers, our efforts have been much appreciated and we received several prestigious awards including the TripAdvisor Certificate of Excellence.
